Aditya Jyot
Eye Hospital
Pvt. Ltd.

ENSURING HIGH QUALITY TOTAL EYE CARE

Aditya Jyot Eye Hospital Pvt. Ltd.

Started in 1990, Aditya Jyot Eye Hospital Pvt. Ltd. has evolved into a center providing "Total Eye Care under one roof".

Now, Patient relatives can utilise their time in a more useful manner by getting their eyes checked, We at Aditya Jyot have introduced A New Preventive Eye Care concept, with NO prior appointment and at lesser cost.

Eye problems are increasing! Catch them at right moment...

Eye problems, which should not be ignored:

- If you have a high minus number (myopia), undergo a regular retinal evaluation to prevent retinal detachment.
- Don't ignore symptoms like: Flashes of light, Floaters, Sudden loss of vision
- All diabetics should undergo retinal evaluation irrespective of their good visual acuity, to rule out diabetic retinopathy and its complications.
- Glaucoma, the silent killer, causes damage to the optic nerve. Vision is irreversibly lost in these patients and therefore complete evaluation is necessary.
- Distorted central vision in the elderly could be a sign of Age related macular degeneration.
- Poor vision or deviated eye in children can be forerunner for amblyopia or "lazy eye"

Now we offers the comprehensive package for patient attendants...

Register for this new concept of, **PREVENTIVE EYE CARE**

Following evaluations will be done:

- History of the Patient
- Vision
- Eye Pressure
- Cataract Evaluation
- Retinal Evaluation

Patient Consultation Charges

550/-

Attendants Consultation Charges
